

PATHWAY TO EXCELLENCE NQT PROGRAMME 2018-19

The bespoke, new-look NQT programme run by the Valley Teaching School Alliance and Croydon Catholic Primary Schools Umbrella Trust, in partnership with Octavo.

We strongly believe that the first twelve months of a teacher's career are not only the most demanding, but also of vital significance in the professional development of a new teacher.

For this reason, we have worked with a number of head teachers and re-developed our NQT training to create a unique, informative and highly relevant learning programme, ensuring that all NQTs have the opportunity to enhance their knowledge, skills and understanding, through collaborative support and practice.

We are proud to offer exceptional professional development delivered by highly experienced and dedicated national and senior leaders. In addition to full day training sessions, observations of outstanding practitioners in local schools, we also provide access to an on-line NQT Forum. This comprehensive programme is designed to help motivate and inspire our newly qualified teachers to truly excel in their first year of teaching.
